Annexure

S No	Particulars	Description
1	Existing capacities	
2	Existing capacity utilization	
3	Proposed capacity addition	30 KL/day production capacity with annual capacity of 10000 KL / Annum
4	Period within which the proposed capacity is to be added	Plant has been commissioned effective 9 th June 2024
5	Investment	Rs. 50 Crores
6	Mode of financing	Internal Accruals
7	Rationale	Coromandel has developed Nano Fertilisers like Nano DAP and Nano Urea, through its inhouse research and development center. The nano-sized fertiliser particles ensure optimal nutrient delivery and absorption by the plants and have the potential to partially replace the conventional fertilisers like DAP, thereby reducing the imports. Tthe company has set up a comprehensive state of the art Nano fertiliser facility at Kakinada to cater to the demands across the country.
