Dear Sirs,

## Scrip Code: COROMANDEL / 506395

## Sub: Update on impact of Hudhud cyclone on the operations of our unit at Visakhapatnam

This has reference to our letters dated 13<sup>th</sup> October 2014 and 20<sup>th</sup> October 2014 informing you of the impact of Hudhud cyclone on the operations of our unit at Visakhapatnam.

We wish to inform you that the power supply has been restored to our Unit through one of the feeders. Certain intermediate plants and one of the granulation plants have started operating on partial load and teething problems are being addressed. The asset integrity inspection work has been initiated for all the plants and the associated infrastructure facilities and, on its completion the plant operations will be ramped up in a phased manner after taking necessary safety precautions.

Consequently, the production during the month of October /November 2014 is likely to be lower than the normal operating capacity of the entire Plant. Steps have been initiated to restore the infrastructure facilities like godowns and pipelines. The surveyors appointed by the Insurance Company are inspecting the plant facilities to assess the damage to stocks and assets for the purposes of ascertainment of claim under the Industrial All Risks Policy. The Company has requested the Insurance Company for interim release of funds.

We will update you as and when the operations stabilize and the plant reaches its full capacity.

We request you to take the above on record.

Thanking you,

Yours faithfully, For Coromandel International Limited

luandary

P Varadarajan VP – Legal & Company Secretary
