

## ACUSPRAY CEREAL

A 100% water-soluble fertiliser, this is designed to supply critical nutrients to cereal crops during the reproductive phase.

**Pack Size 1 Kg**

### Features

- Contains 12:00:35:1:0.3 (N:P:K:Zn:B).
- Crop-specific customised solutions.
- Four important nutrients in one formula.
- Supplies 100% crop need of micronutrients during reproductive stage.
- Customised for solution pH for better absorption by the plants.

### Benefits

- No Chaffy grains, higher grain weight and thus higher yield.
- Increases whole grain recovery during milling.
- Less disease and pest incidence.

## Dosage & Application

- Gromor AcuSpray Cereal SP should be applied at 10grams/litres of water.
- 2-3 sprays can be done starting from flowering and can be continued till physiological crop maturity.
