

GROMOR MOP

With Potassium being the only ingredient, this fertiliser is ideal for both basal and top dressing, improving colour, flavour and storing quality of fruits and vegetables.

Pack Size 50 KG

Features

- In MOP the available K₂O is 60%. Sodium as NaCl per cent by weight (on dry basis) maximum – 3.5%.
- Moisture per cent by weight, maximum 0.5%.

Benefits

- Plants absorb Potassium as K⁺ form and helps in opening and closing of stomata thus impart resistance to the stress conditions.
- Increases disease resistance, vigour and hardiness of the crop. It improves the yield and quality of the all crops.

Dosage & Application (kg per acre)

Mostly topdress and based on the RDF of the crop and complex fertilisers applied at basal and topdress. Paddy, Cotton, Wheat, Maize: 50 kg; Commercial crops – Sugarcane: 80-100 kg; Vegetable crops: 50-80 kg.
