

## PLATINA

It is a plant growth regulator, that is a combination of all essential amino acids and vitamins required for plant growth.

**Pack Size 25 ml, 50 ml, 100 ml, 250 ml, 500 ml, 1 litre and 5 litres**

## Specifications

- It is L-cysteine based plant growth regulator available in the market.
- It is a combination of all essential amino acids and vitamins required for plant growth.
- It helps in both vegetative and reproductive growth.
- It helps to overcome stress conditions.
- It helps in better flowering, fruit development and yield.
- Depending upon specific requirement of the plant it supplies the essential amino acids.
- Enhances stomatal growth & chlorophyll synthesis.
- Promotes femaleness in dioecious flowers.
- Ensures better fruit quality thus ensures better price.

## Other details

- Category: Plant growth regulator.
- Compatibility: It is compatible with all the insecticides and fungicides available in the market.
- Mode of Action: Amino acid based. They represent building blocks for several other biosynthesis pathways and play pivotal roles during signaling processes as well as in plant stress response.
- Phytotoxicity: No Phytotoxicity observed when used as per recommended label.

## Crop Application

Crop	Dose (ml/acre)
Vegetables, Cucurbits, Potato	100-150 ml/acre
Horticultural Crops	100-150 ml/acre
Cash Crops	100-150 ml/acre
Cereals	100-150 ml/acre
Flowers	100-150 ml/acre
